

# GENERAL CONDITIONS 2025

## BÖRKUR FRÁ STRANDARHJÁLEIGU

The general terms and conditions apply to all coverings through Hengstenhouderij van Nunen in 2025. By registering the mare owner declares to have taken note of our breeding and payment conditions and agrees to these conditions.

### Hand covering

Börkur is available through hand covering.

### PCR CEM test

We require a PCR CEM test of the mare.

The CEM test will be taken at Hengstenhouderij van Nunen.

### Bookingfee

The bookingfee is €300 exclusive VAT 21%. The bookingfee is non-refundable and must be booked before the mare is brought. When the mare is scanned pregnant the bookingfee will be withdrawn from the total covering fee.

### Bacteriological test

We recommend a bacteriological test of the uterus. This test can be taken at home before arrival or at Hengstenhouderij van Nunen. The mare can be treated at Hengstenhouderij van Nunen, if she is unclear on the swab-test. Bacteriological test is not required.

### Before arrival

- The mare is brought without shoes and with well-groomed hooves.
- Horse passports must be handed in and the mare must be vaccinated.
- The mare is healthy and recently dewormed.
- If the mare has eczema, an eczema blanket must be brought.

### During stay

Mares are covered, scanned and treated at the expense and risk of the mare owner.

Hengstenhouderij van Nunen reserves the right to call a veterinarian at our discretion at the owner's expense.

Mares with aggressive behavior or are difficult to catch are moved to a separate paddock at the owner's expense.

The mare-owner gives mandate for us to transport the horse if necessary.

### Pregnancy ultrasound

Mares must be scanned for pregnancy between 15 and 21 days after ovulation and results must be reported to Hengstenhouderij van Nunen immediately after. The remaining amount for the covering and other expenses will be invoiced when the mare is +15 days pregnant. Payment period of 14 days

### Health

The mare owner guarantees that the mare/foal has not been in the vicinity of other horses with or symptoms of druse for the past 3 months.

The mare owner guarantees that the mare/foal or any other horse which the mare/foal have been in contact with within the past 6 weeks, have not shown signs of infectious diseases.

### Non-pregnancy

If the mare resorbs before the 45th day of pregnancy (from date of last covering), van Nunen will issue a credit note of the 'by pregnancy' part of the studfee (bookingfee will not be refunded). Provided that a veterinary certificate of non-pregnancy is presented to van Nunen before the 45th day of pregnancy. If the certificate is not submitted in time, the issue of a credit note is not possible.

### Fresh semen

We work with fresh semen. If a stallion for a reason (illness, injury, etc.) not available is at short time during the breeding season, we offer you the use of another stallion. The bookingfee is also non-refundable in this case.

### Covering certificate

The covering certificate will not be issued or forwarded to the respective breeding association until the studfee and all other costs have been settled.

### Liability

Hengstenhouderij van Nunen does not accept any liability for damage, illness (Druse/CEM/Rhino and so on) and/or injury to people, animals, means of transport or otherwise. Horses are handled, covered & stabled at owner's risk. The mare-owner is responsible for all possible costs.

### Registering

By registering the mare owner has taken note of our breeding and payment conditions and agrees to these conditions.
